

## **711.01.2, Epoxy Coating for Reinforcing Bars**

### **Qualification Requests**

The information sent in with the request form must include the CRSI(Concrete Reinforcing Steel Institute) Epoxy Coating Plant Certification and QC plan.

### **Qualification Requirements**

The requirements for the plants that are applying for QPL prequalification are as follows.

- ❖ The producer will keep their CRSI(Concrete Reinforcing Steel Institute) Epoxy Coating Plant Certification up to date.
- ❖ All records at the plant will be kept up to date.
- ❖ MDT will confirm that the Epoxy Coating Plant Certification is up to date.  
The plant will be rejected if all of the requirements are not meet.

### **Material Requirements**

Requirements may be found in the Standard Specifications for Road and Bridge Construction subsection 711.01.2, the Supplemental specifications to Montana Standard Specifications subsection 711.01.2 or contract Special Provision.
